Automatic Document Handling

# No hassle – just benefits

## You Save Time & Cut costs

Handling despatch papers manually is a nightmare. Caljan Print & Pouch automates this process, so it becomes efficient and cost-effective.

Customer specific shipping papers are printed, folded and placed in a pouch. The appropriate carrier label is applied and the consignment is ready for despatch.

- ✓ No preprinting required.
  - ✓ No mistakes due to last minute changes.
  - ✓ No time wasted applying document pouch.
  - ✓ No time wasted finding correct label.
  - ✓ No manual intervention required.
- Everything is done automatically – in SECONDS rather than minutes.

## Can you afford to wait?

- ★ Handle higher volumes at significantly lower cost
- ★ Avoid mistakes; parcel & documents are perfectly matched
- ★ Your customers save time identifying content
- ★ We take full responsibility for complete solution

## Your Customers Save Time & Cut costs

Whether the box contains goods for replenishing store stock, an e-commerce order to be collected in store or components for a B2B customer – parcel content is speedily identified without opening the box. Project Management is easy, as we take full responsibility at all stages. You don't sign off until you are completely happy with the results.

Handling loose-loaded cargo with ease
